

Global Alliance for Improved Nutrition

Job title:	Project Manager - Whey2Value		
Classification:	Grade 5	Direct reports:	1 - 5
Work location	Lahore, Pakistan	Travel required:	Up to 50 %

The Global Alliance for Improved Nutrition (GAIN) is a Swiss-based foundation launched at the United Nations in 2002 to tackle the human suffering caused by malnutrition. Due to COVID19, conflict in Ukraine and climate change, malnutrition and hunger have worsened significantly since 2019, reversing a decade of progress. There is growing recognition that our food systems need to change if we are to reverse these trends.

GAIN's Strategy aims to transform food systems to make healthier diets from sustainable food systems accessible to all people and especially those who are most vulnerable to shocks. By 2027, we aim to improve the access of 1.5 billion people to nutritionally enhanced staple foods, improve the access of 25 million people to healthier diets, and support positive food system change in 10 countries. This is bold and complex, and the only way to achieve this is to work together with partners including governments, businesses, and civil society at the country and global level. These goals, and the ways of achieving them, build on our twenty-year legacy of transforming people's lives with improved nutrition through concerted action and effective policy change.

DESCRIPTION
<p>Overall purpose</p> <p>GAIN Pakistan is looking for a Project Manager for its Whey2Value Project. The overall objective of the project is to "valorise dairy waste streams to reduce environmental impact and support sustainable business growth and improved human health/nutrition" with three sub-objectives: i) reduced environmental strain caused by dairy processors; ii) sustainable and responsible economic growth and new job creation in the dairy value chain; and iii) improved consumption of nutritious whey-based products by vulnerable populations. In this project, GAIN is working with consortium partners like Arla Foods Ingredients (AFI), Danish Industry (DI), and local dairy processors with the support of DGBP to co-develop a solution repurposing fresh whey into a nutritious food/drink product, preventing waste, nutrient loss, and environmental contamination.</p> <p>The Project Manager will be responsible to ensure implementation of the project, Whey2Value - Greening the dairy sector in Pakistan and provide all the functional, technical and managerial leadership.</p> <p>S/he will lead the project, and establish, manage and maintain relationships with relevant partners and stakeholders. Responsible for the overall project management leadership and ensure the project team and partners implement project activities within approved plans, budget, and quality standards.</p> <p>The Project Manager, throughout the project life cycle, ensures accurate planning, management and reporting of activities, budgets (resources), monitoring, external services and any other key areas required to deliver successful projects.</p>
<p>Tasks and responsibilities</p> <p>Project Design, Planning and Implementation</p> <ul style="list-style-type: none"> • Provide strategic leadership in the design, planning and implementation of the project as per the GAIN Project Management Guidelines (PMG). • Define project scope, activities and objectives in line with the GAIN business plans, programme frameworks, and organizational strategic priorities. • Monitor the context dynamics and adapt the project activities and implementation modalities accordingly. • Enable and support team members to conduct assessments and take part in proposal developments. • Lead the preparation for the inception workshop for the project. Facilitate the inception workshop with support from the other teams in GAIN.

- Facilitate project review meetings at regular cycles and ensure (track) documentation of findings and recommendations in PRISM.
