

The Global Alliance for Improved Nutrition

Job Title:	Research Associate, EatSafe
-------------------	-----------------------------

Classification:	D3-Associate	Direct Reports:	0
Work Location	Addis, Ethiopia	Travel Required:	30%

The Global Alliance for Improved Nutrition (GAIN) is a Swiss-based foundation launched at the UN in 2002 to tackle the human suffering caused by malnutrition. Working with both governments and businesses, we aim to transform food systems so that they deliver more nutritious food for all people. In particular, we aim to make healthier food choices more desirable, more available, and more affordable. GAIN's mission is to advance nutrition outcomes by improving consumption of nutritious and safe food for all people, especially the most vulnerable to malnutrition.

Description
<p>Overall Purpose:</p> <p>EatSafe is a five-year, multi-country project that aims to enable lasting improvements in the safety of nutritious foods in informal markets in low- and middle-income countries (LMICs) by focusing on the consumer. We will implement and test a series of gender-sensitive interventions to substantially improve food safety, working with vendors and creating consumer demand for safe nutritious foods. The interventions will be developed building on existing evidence and through the generation of new knowledge on what influences food safety in informal markets.</p> <p>The EatSafe Research Associate will contribute to and support research efforts, identify and liaise with local research counterparts, and provide technical support for project activities.</p> <p>Tasks and Responsibilities:</p> <ul style="list-style-type: none"> • Work closely with colleagues to implement the project's research activities (e.g., finalization of research design; help design, format, and ensure translation of research tools; support training for data collection; supervise data collection activities; verify data quality) • Work closely with local research partners to ensure all research activities are completed as planned, on time, and with high quality. • Ensure all research permissions are sought and received before commencement of research activities. • Work with research staff and EatSafe Country Senior Project Manager to support preparation of materials and planning for meetings and workshops. • Support research translation and dissemination, including but not limited to preparation of presentations and abstracts, technical briefs, journal articles, case studies, success stories, and/or blogs. • Support in stakeholder engagement processes. • Support the EatSafe Country Senior Project Manager to ensure that all project activities are completed according to the implementation timeframe and budget.
