

## Global Alliance for Improved Nutrition

<b>Job title:</b>	Research Associate, EatSafe
-------------------	-----------------------------

<b>Classification:</b>	D3 – Associate	<b>Direct reports:</b>	0
<b>Work location</b>	Kebbi, Nigeria	<b>Travel required:</b>	20%

The Global Alliance for Improved Nutrition (GAIN) is a Swiss-based foundation launched at the UN in 2002 to tackle the human suffering caused by malnutrition. Working with both governments and businesses, we aim to transform food systems so that they deliver more nutritious food for all people. In particular, we aim to make healthier food choices more desirable, more available, and more affordable. GAIN's mission is to advance nutrition outcomes by improving consumption of nutritious and safe food for all people, especially the most vulnerable to malnutrition.

DESCRIPTION
<p><b>Overall purpose</b></p> <p>The USAID-funded EatSafe: Evidence and Action Towards Safe, Nutritious Food program will be implemented by a consortium led by GAIN with the goal of generating evidence and knowledge of the potential of increased consumer demand for safe food to substantially improve the safety of nutritious foods in informal market settings in low- and middle-income countries.</p> <p>The EatSafe Research Associate will contribute to and support research and project implementation efforts, identify and liaise with local counterparts in Kebbi and provide technical and coordination support for project activities.</p>
<p><b>Tasks and responsibilities</b></p> <p><u>Project implementation support and coordination</u></p> <ul style="list-style-type: none"> <li>• Working closely with the Head of EatSafe Country Programmes and project staff to support implementation of the project's activities including but not limited to overseeing implementation of activities in the market, supervising data collection activities; verifying data quality, coordinating local partners and supporting local stakeholder engagement</li> <li>• Collaborating with colleagues to implement the project's research activities (e.g., finalization of research design; help design, format, and ensure translation of research tools); supporting training for data collection; supervising data collection activities and verifying data quality</li> <li>• Ensuring all project activities are completed according to the implementation timeframe and budget</li> <li>• Supporting the Head of EatSafe Country Programmes to implement strong project management processes, ensuring regular communication with partners and colleagues, and ensuring smooth and timely budget disbursements</li> </ul> <p><u>Research implementation, communication, and application of research findings:</u></p> <ul style="list-style-type: none"> <li>• Ensuring that the programme research activities and outputs are integrated and aligned with other country programme strategy</li> <li>• Coordinating with local research and implementing partners, contractors and consultants to ensure all research activities are completed as planned, on time, and with high quality</li> </ul>
